## SKILLS

---

**Technology** Javascript, ReactJS, Gatsby, GraphQL, HTML, CSS, JSX, Docker  
**Tools** Webpack, Babel, TypeScript, Jest, TeamCity, SonarQube, Cypress  
**Interests** Web, Infrastructure, UX, Performance, Security, Accessibility

## EXPERIENCE

---

**Senior Lead Software Engineer** Jul 2022 - Present  
Accion Labs *Remote*

- I am currently leading the core team which supports the baseline architecture of the Member management system and its integration with other systems. I am working on modernizing the existing systems into Gatsby coupled ReactJS application.
- This involves working with a Cloud-based strategy and implementing CI/CT pipelines.
- Reduced member sign-in by 400%.

**Technical Lead \* Development Engineer II** Jul 2017 - Jun 2022  
Rotary International *Pune, IN*

- I worked as a Technical Lead for the Leads team. I supported research and enhancements to the existing Leads flow. The primary goal was to provide performance improvement and easier flows for an onboarding Member.
- I worked as a Web Developer for all front-facing sites owned by the Web Operations team at Rotary International. This involved working with heavily customized Drupal Sites (100+ custom modules) to Media-oriented Portfolio sites. I became a crucial member of a team responsible for high-priority business feature releases to solve an urgent bug in a production system.
- I audited sites for security patches and contributed to keeping them secure.
- The team was able to deliver a 100% growth in Leads conversion rate.

**Web Developer \* PHP Developer \* Drupal Developer** Aug 2013 - July 2017  
Freelancer | NTT DATA, Inc | Constellation Software and Consulting Pvt Ltd *Pune, IN*

- I worked as a primary developer for Drupal-related work for various organizations. I was responsible for building multiple applications from scratch on Drupal and hosting them on a Linux server.
- One of the team became capable of handling bulk projects and finishing them on time. I worked on multiple projects at once thereby increasing 50% more revenue by assisting the core team.
